Deploy using Heroku

Agile Deployment for Ruby (and others...)

<u>Always</u> deploy early

Very easy to get started

"Almost too easy"

Very easy to get started

"Almost too easy"

‣ **Sign up at heroku.com**

‣ **Install the Heroku Toolbelt**

‣ **>> heroku login**

‣ **>> heroku create MY_COOL_APP**

‣ **>> git push heroku master**

3

A few useful commands

▸ **>> heroku open**

▸ **>> heroku logs**

▸ **>> heroku ps:scale web=2**

OK. Let's get your CV online...
